[Portfolio Website](#) | [LinkedIn](#) | [GitHub](#) | [Medium](#) | [Behance](#)

Software Developer with experience in object-oriented programming; developing and debugging while quickly learning and mastering new technologies that help maintain clean codebases. Has a passion for coding since sixth grade, creating & inspecting code structures makes him excited about web development. Known for effectively collaborating with peers, communicating cross-functionally and providing technical value-added insights to help support and drive business outcomes.

## TECHNICAL SKILLS

Object Oriented Programming | Dart & Flutter | Ruby & Rails | JavaScript | React & Redux | React Native | Selenium | Firebase | JWT | IBM Watson | Stripe | PostgreSQL | PineScript | MQL4-5 | Adobe Illustrator & Photoshop & InDesign

## TECHNICAL PROJECTS

### Forever 31 - [Website](#) | [Github Front-End](#) | [Github Back-End](#)

A clone of Forever 21 Store that has a much simpler and user-friendly design than the original one.

- Combined, React, Redux, React Semantic-UI and [Popmotion](#)(Pose) to design architecture and behaviors.
- Integrated [IBM Watson](#) to present an AI that helps the user navigate between pages and sort products.
- Employed [Stripe](#) to manage user payments and increase security measures for personal information.
- Implemented JSON Web Tokens to encrypt sensitive information.

### ToDo App - [Website](#) | [Github Front-End](#) | [Github Back-End](#)

A project management tool that allows students to track the progress and completion of their projects.

- Executed backend using Ruby on Rails API resulting in the creation of multiple frontend clients.
- Consolidated codebase producing code that was reusable in React and React Native projects.

### Huma Breath - [Website](#) | [App Store](#) | [Play Store](#)

A mobile app, made for breathwork.

- Operated iOS App development and deployment with Flutter & Xcode.
- Involved in consuming the web services and controlling the request response with pre and post processors.
- Solved raised tickets and improved application performance.

### EBU Indicator - [Website](#) | [TradingView](#)

A script that automates the process of finding a complicated pattern on financial price charts.

- Created a passive income channel with more than 15 monthly paying customers.
- Employed unique and powerful techniques on the product for solid results such as +30% profits.
- Worked with a team member located off-shore.

## RELATED EXPERIENCE

### Junior Application Developer, Huma Inc.

April - August 2020

- Developed and maintained the mobile app built with Flutter for iOS.
- Participated in daily meetings and contributed to ideas/features.

### Software Engineer(Contractor), CaveTech Residuals Inc., Staten Island, NY

January - February 2020

- Created an automation system for after purchase actions with Selenium.
- Integrated PayPal's API with the website's payment flow.
- Managed an email automation system that resulted with an increase in sales.

## EDUCATION

### Flatiron School, New York, U.S.

September - December 2019

Full Stack Web Development, Ruby on Rails and JavaScript curriculum.

### Istanbul Social Sciences High-School, Istanbul, Turkey

September 2015 - June 2019

High School Diploma, 3.1 GPA
