Full-Stack Web Developer

Full-Stack Web and Mobile App Developer with experience in Ruby, Flutter and JavaScript. I have had a passion for coding since sixth grade, creating & playing with web components makes me excited about web development. I would love being part of companies with creative cultures, and I am looking forward to contributing my full capacity and experience.

TECHNICAL SKILLS

Object Oriented Programming, Dart, Flutter, Ruby, Rails, JavaScript, React, Redux, React Native, Selenium, Firebase, JWT, IBM Watson, Stripe, PostgreSQL, Heroku, PineScript, Adobe Illustrator-Photoshop-InDesign

TECHNICAL PROJECTS

Forever 31 - Website | Github Front-End | Github Back-End
A clone of Forever 21 Store that has a much simpler and user-friendly design than the original one.
- Combined, React, Redux, React Semantic-UI and Popmotion(Pose) to design architecture and behaviors.
- Integrated IBM Watson to present an AI that helps the user navigate between pages and sort products.
- Employed Stripe to manage user payments and increase security measures for personal information.
- Programmed Back-End with Ruby on Rails to build an API that serves multiple front-end clients.

Huma Breath - Website | App Store | Play Store
A mobile app, made for breathwork.
- Operated iOS App development and deployment with Flutter & Xcode.
- Involved in consuming the web services and controlling the request response with pre and post processors.
- Solved raised tickets and improved application performance.

EBU Indicator - Website | TradingView
A script that automates the process of finding a complicated pattern on financial price charts.
- Created a passive income channel with more than 15 monthly paying customers.
- Employed unique and powerful techniques on the product for solid results such as +30% profits.
- Worked with a team member located off-shore.

RELATED EXPERIENCE

Junior Application Developer, Huma Inc.   April 2020 - Present
- Developed and maintained the mobile app built with Flutter for iOS.
- Participated in daily meetings and contributed to ideas/features.

Software Engineer(Contractor), CaveTech Residuals Inc., Staten Island, NY   January - February 2020
- Created an automation system for after purchase actions with Selenium.
- Integrated PayPal's API with the website's payment flow.
- Managed an email automation system that resulted with an increase in sales.
